

# The easy to install boiling water tap... that's everyone's cup of tea

## High performance and great value

Unlike similar 3 in 1 products on the market, Reditap offers great performance at an affordable price point to capture more sales. It also includes a space-saving boiling water tank, making it an easy fit in smaller kitchens - two features that will be attractive to aspirational but cost-conscious homeowners as well as trade professionals.

## Quick and easy to install

Supplied with flexible hoses for speedy tap to tank connection, Reditap is quick and straightforward to install for any professional plumber. Simple step-by-step instructions will enable you to brew a cuppa straight from the tap in no time at all.

## Smart, stylish and safe

Simple and intuitive to use, Reditap has an controlled flow rate delivery of 1.8 litres per minute which minimises the possibility of splashing and ensures maximum temperature draw off in a single shot. With safety in mind, the spout is insulated and there is a safety boiling tap control to prevent accidental selection or operation. In addition, Reditap features boil dry safety protection and easy access for descaling in hard water areas.
